

Restorative Allied Health Services Partner

Your Allied Health Service Partner

Who are we?

Agestrong Health Group (AHG) is a national allied health provider operating in Australia for over 10 years. As a privately owned company, practitioner lead, AHG is accredited under the NHSQ and NDIS quality standards and have robust governance and operational systems compliant with the Australian Aged Care Quality standards. As a committed and respected service provider, AHG delivers high-quality, customer-focused, and cost-effective solutions for all your allied health service requirements.

AHG specialises in brokered allied health services for government, private, and not-for-profit organisations, and provides services to over 3,500 individual clients across the residential, community, sub-acute and NDIS sectors each year and. Our multidisciplinary team includes:

Physiotherapy

Occupational Therapy

Speech Therapy

Dietetics

Psychology

Exercise Physiology

How we can help you

Partnering for Better Outcomes

- Don't have your own allied health staff – no problems AHG can help you meet your single service provider requirements by providing instant access to a pre-qualified and experienced team of allied health practitioners to carry out Reablement Programs under section 5.3 of Support at Home guidelines.
- Provide access to a multidisciplinary team that can manage all aspects of the clients care needs including home modification & assistive technology assessments and implementation.
- Offer complete program management from goal setting to exit program summaries and recommendations for ongoing care needs.

Benefits of Partnering

with Agestrong Health Group

- We take the burden out of allied health service supply and management with a done for you partner model.
- Trusted national provider, with an established experienced allied health team (physiotherapy, dietetics, occupational and speech therapy) to support your clients.
- Capacity & availability to deliver the therapeutic supports appropriate to the client's needs within a community or clinical setting.
- Tried and tested processes and structures in place to manage referrals with a 24hr turn around.
- Existing operational service structure that supports a reablement and best practice approach.
- Provision of detailed reports on client progress and industry key performance indicators.
- Proven, accredited and experienced service provider compliance with and aligned to the Australian Aged Care Quality Standards and regulatory reporting requirements.

Our Services and Programs

Allied Health Services

AHG offers access to on off or regular allied health services under the **FREE** Clinical Care funding of the Support at Home program. Allied health services do not attract a co-contribution from clients to access these services.

AHG has expertise in providing services such as:

- Home safety assessments
- Home modifications – minor & major
- Rehabilitation services – stroke, MS, Parkinsons Disease, dementia, frailty, respiratory conditions
- Management of chronic pain – osteoarthritis, rheumatoid arthritis, spinal degeneration
- Swallowing and dietary concerns – underweight, palliative, overweight, diabetes, celiac
- Language, memory and communication difficulties

Whatever you client's needs our experienced team of registered practitioners can help your clients live their best life.

Our allied health assessment and therapy services focus on:

- **Building on strengths and abilities** – draws on an individual's strengths, capabilities and capacity, rather than disability at all levels of Support At Home clients.
- **Person-centred** – meaningful SMART goals focused on individual needs and preferences.
- **Outcome focused** – achievable functional goals focused on regaining function, learning/ re-learning skills, building confidence and reinstate a safe level of independence.
- **Restorative mindset** – based on a restorative approach our therapy and programs focus on empowering your client to be actively involved in incorporating therapy gains into daily life and not on ongoing therapy.

AHG has been delivering multidisciplinary restorative programs for over 10 years within the community so are experts in restorative and reablement care design and program management. AHG offers partnership to provide the Support at Home 12 week Restorative Care pathway which offers a focused, coordinated approach to regaining function and rebuilding strength and capability for your clients.

Client Management 3 Step Process

1

Intake – simply send us a referral via email and our dedicated intake team will personally manage the client onboarding journey. Clients are contacted within 24hrs of referral and scheduled to be seen in most cases within 10 business days of referral.

2

Providing Services – this is where we excel and as valued partners our clinical team will keep you updated with your client's positive progress along the way.

3

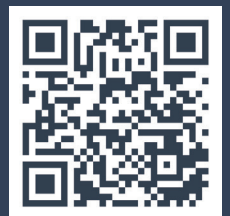

Offboarding – once your client has graduated from our program or therapy services, our clinical team will provide you with a details summary and assist your team in coordinating any follow up support services or plan.
